

Document title: Data Management Plan

1. D1.3: Data Management Plan / Report - Sensitive
WP 1, T 1.2

1. **Author: Fedele Colantuono (UniFg)**

Abstract

This document comes from the implementation of the T1.2.3 “Production of the Data Management Plan” and represents a guide on identifying the different types of data which the project may acquire, process or disclose either internally within the consortium, or even partially to external counterparts, during and after the project lifetime. This plan contributes to specific provisions, in relation to data concerning either individuals and/or their organisations, to make sure that all data are treated in compliance with the principles of the EC and their relevant guidelines for the development of the data management strategy in Horizon Europe and in line with partners' expectations. The data management plan might require constant adjustment and revision based on data types and flows generated throughout the project.
