D1.1 Quality Assurance Planning Manual

1. D1.1: Quality Assurance Planning Manual/ R - SEN
    WP 1, T 1.1

    1. **Authors: Fedele Colantuono (UNIFG)**

Short summary

The Quality Assurance Planning Manual represents a reference document, developed internally by the Project Coordinator with the WP leaders support, setting out the protocols and procedures for the management activities.

It describes and explains the COREnet Project Quality Assurance process. It provides guidelines for managers responsible for the delivery of project outputs. In the Manual have been included templates for use in QA planning and reporting, as well as examples to illustrate the use of these templates.
